### **Comment:**

Overall, we were well received by the guests and organizers of the conference.

Our topic *“Using Elders in the Educational Institution”* was of great interest to those who were in attendance.

I thank BTEST, RCCC and the CURA organizers with their sponsorship for me to attend the conference.

The conference was held at the Saint Mary’s University Sobey Building

I stayed at the Dalhousie University Residences – Risley Hall to save some money with a limited budget for this trip.

I enjoyed the trip meeting people and making international contacts.

The people from Guyana, South America wants to work with RCCC in some way but not certain. They took my business card

Also Fort McMurray was interested in working with RCCC and they also took my business card to contact me for a future projects
